

**REMARKS**

The Final Office Action of June 16, 2006 and subsequent Advisory Action of December 15, 2006 address the Examination of claims 6-12. These claims remain pending and rejected.

**Amendment to the claims**

Claims 6 and 7 are amended to delete the particle combinations (b) and (c) from the claims.

In a telephone interview with the Examiner conducted February 14, 2007, the Examiner indicated that on review of the cited prior art references, she did not find particle combination (a) among the arrangements of elements of the prior art compositions. She indicated that amendment of the claims to remove combinations (b) and (c) would make the claims patentable over the prior art of record.

Applicants have amended the claims in accord with the suggestion of the Examiner and so submit that the present claims 6-12 are allowable over the prior art of record. The favorable action of allowance of the claims is respectfully requested.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Mark J. Nuell Reg. No. 36,623 at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
